**1. Read and match:**

1 The eagle
2 Plants produce
3 The small intestine

a. (   ) pollen in a flower.
b. (   ) completes the digestion.
c. (   ) eats small mammals and rabbits.

**2. Read and put (✓) or (✗):**

1 Egyptian farmers produce many foods for us to eat. (   )
2 Tamarisk tree grows in the agricultural habitat. (   )
3 Fennec foxes have thick fur. (   )

**3. Fill in the gaps using words in the box:**

(Roots – rice – sprained)

1 Egyptian farmers grow ............................ in Egypt.
2 ............................ grow under the soil.
3 Press a bag of ice on his ............................ foot.

**4. Circle the odd word out:**

1 shoot – root – leave – desert
2 eagle – live – fennec fox – snake
3 redo - wheat - repaint - remake

**5. Choose the correct answer:**

1 We grow (chicken – onions – goats) in Egypt.
2 Wash the scrape with soap and (water – tea – milk).
3 The female steppe eagle is (big – bigger – biggest) than the male.

**6. Read the passage and answer the questions:**

Each plant is made of millions of cells. These cells are very, very small. We can only see them with a microscope. Chloroplasts make the plants green. The green plant cells are very important because they make food for the plant. They use sunlight, carbon dioxide and water.

**A) Choose the correct answer:**

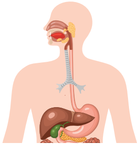

1 Plant cells are very (big – large – small).
2 (Oxygen – Chloroplasts – Water) make the plants green.

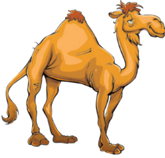

**B) Answer the following question:**

3 How can we see plant cells?

.................................................................................................................................

## 7. Look, read and complete:

1  The food goes through the ..................................to the stomach.

2  The .................................. helps us carry things and people.

3  Put .................................. in your balcony.

## 8. Rearrange the following:

1 is – in – The nose – the center – the face – of.

..........................................................................................................................................

2 pumps – The – around – heart – body – blood – the.

..........................................................................................................................................

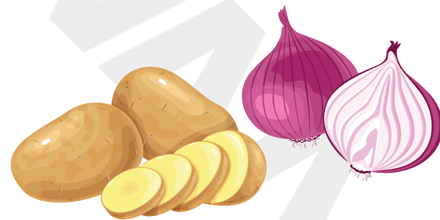

3 noisier – the camel – than – Is – horse – the?

..........................................................................................................................................

## 9. Look, read and answer:

3

A: Where does it live?
B: ....................................................

A: Which foods does Egypt produce?
B: ....................................................

## 10. Punctuate the following:

3

1 Damietta governorate is famous for domiati cheese

..........................................................................................................................................

2 how long does a steppe eagle live

..........................................................................................................................................

**1. Read and match:**

1. We chew food
2. A camel
3. "Polluted" means when something

a. (   ) helps people to cross the desert.
b. (   ) is dirty from factories and cars.
c. (   ) with our teeth.

**2. Read and put (✓) or (✗):**

1. The heart is in the center of the face. (   )
2. Green plants produce oxygen. (   )
3. Reed grows in rivers and lakes. (   )

**3. Fill in the gaps using words in the box:**

(but – seed – faster)

1. We plant a ............................ in the soil and a plant grows.
2. He wants to play football, ............................ he has a sprained foot.
3. The cheetah is ............................ than the dog.

**4. Circle the odd word out:**

1. elephant – giraffe – tamarisk – mouse
2. oats – Suzanne – honey – butter
3. wings – beaks - desert – feathers

**5. Choose the correct answer:**

1. The (root – shoot – fruit) grows taller to have leaves.
2. Flapjacks are big, square (cakes – cookies – sandwiches).
3. I eat food, (but – and – so) I exercise.

**6. Read the passage and answer the questions:**

Plants can grow in different habitats. Farmers work in the agricultural habitat and grow many plants such as bean plants and orange trees. Tamarisk and acacia trees grow in the desert habitat. There isn't much water there. The plants that grow in the desert don't need a lot of water.

**A) Choose the correct answer:**

1. (Tamarisk – Bean plants – orange trees) grow in the desert habitat.
2. There isn't much water in the (agricultural – river – desert) habitat.

**B) Answer the following question:**

3. What do farmers grow in the agricultural habitat?

..........................................................................................................................................

## 7. Look, read and complete:

1. Very light seeds can ................................ in the wind.
2. I'm wearing my ................................ .
3. I have a ................................ on my hand.

## 8. Rearrange the following:

1. like – Does – she – eat – chicken – to?

   ..........................................................................................................................

2. have – Birds – wings – feathers – and.

   ..........................................................................................................................

3. most – The – is – rose – beautiful – flower – the.

   ..........................................................................................................................

## 9. Look, read and answer:

**A:** What do Egyptian farmers grow?
**B:** ................................................

**A:** Where do lotus flowers grow?
**B:** ................................................

## 10. Punctuate the following:

1. Farmers raise cows  goats and sheep in damietta.

   ..........................................................................................................................

2. where is Sahara Desert

   ..........................................................................................................................

## 1. Read and match:

1. Egyptian farmers
2. Stay away
3. The large intestine

a. ( ) from smoke.
b. ( ) takes water and salt from food for the body.
c. ( ) grow rice, onions and tomatoes.

## 2. Read and put (✓) or (✗):

1. Potatoes, onions and tomatoes are fruits. ( )
2. Damietta governorate is famous for Domiati cheese. ( )
3. All animals are important. ( )

## 3. Fill in the gaps using words in the box:

(pelican – band-aid – rivers)

1. The .............................eats small fish.
2. Wash the scrape and redo the ............................. .
3. Plants in ............................. and lakes need lots of water.

## 4. Circle the odd word out:

1. shortest – biggest – slower – fastest
2. Africa – giraffe – snake – fox
3. lungs - butter - esophagus - stomach

## 5. Choose the correct answer:

1. The land in Damietta governorate is rich (at – of – in) nutrients.
2. We take (oxygen – carbon dioxide – water) from air to breathe.
3. The fox's thick (feather – fur – wing) keeps it warm.

## 6. Read the passage and answer the questions:

We use our digestive system when we digest what we eat and drink. We chew the food with our teeth, then the food goes down the esophagus. When it arrives in the stomach, the food mixes with the gastric juice. The gastric juice changes it into a simpler form.

### A) Choose the correct answer:

1. We chew the food with our (esophagus – stomach – teeth).
2. The food goes down the (teeth – mouth – esophagus) to the stomach.

### B) Answer the following question:

3. What does the gastric juice do?

..........................................................................................................

## 7. Look, read and complete:

1. The .................................. is in the center of the face.
2. A plant is made of millions of .................................. .
3. We have two .................................. in our body.

## 8. Rearrange the following:

1. chicken – Farmers – in – raise – Egypt.

.....................................................................................................................................................

2. heavier – The elephant – than – lion – the – is.

.....................................................................................................................................................

3. does – How – long – eagle – live – a steppe?

.....................................................................................................................................................

## 9. Look, read and answer:

**A:** How much water does it need to grow?
**B:** ....................................................

**A:** What does it eat?
**B:** ....................................................

## 10. Punctuate the following:

1. adel has a sprained foot

.....................................................................................................................................................

2. where do camels live

.....................................................................................................................................................

## 1. Read and match:

1. Camels are
2. Lotus flowers
3. "Pump" means

a. (   ) grow in rivers and lakes.
b. (   ) to move quickly from one place to another.
c. (   ) perfect for the desert.

## 2. Read and put (✓) or (✗):

1. You can put a band-aid on a scrape. (   )
2. Nose and lungs are parts of the digestive system. (   )
3. Crocodiles eat grass and plants. (   )

## 3. Fill in the gaps using words in the box:

( lungs – flapjacks – mammals)

1. We have two ............................ in our body.
2. We need butter, honey and oats to make ............................ .
3. The steppe eagle eats small ............................ and rabbits.

## 4. Circle the odd word out:

1. faster – smaller – shorter - dangerous
2. lotus – desert – rose – daisy
3. lemons – grapes – guava – chicken

## 5. Choose the correct answer:

1. The cheetah is (fast – faster – fastest) than the dog.
2. Fishermen (catch – visit – make) thousands of fish in the sea.
3. Domiati cheese is very (poor – famous – bad).

## 6. Read the passage and answer the questions:

Plants are very helpful to us because they can make the air cleaner. People need oxygen to breathe. In big cities, the air is polluted because of factories and cars. There is a lot of carbon dioxide. Green plants take carbon dioxide and give us oxygen to breathe.

### A) Choose the correct answer:

1. The air in big cities is (clean – polluted – clear) because of cars and factories.
2. Green plants need (oxygen – people – carbon dioxide) to make their food.

### B) Answer the following question:

3. Why are plants important to us?

.............................................................................................................................

## 7. Look, read and complete:

1. The pelican has a big ............................. .
2. Farmers work at the ............................. habitat. They grow food for us.
3. Horses like to eat ............................. .

## 8. Rearrange the following:

1. are – Snakes – most – the – dangerous – animals.

   .............................................................................................................................

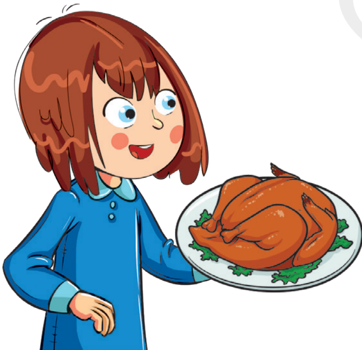

2. seeds – Some – to – fur – stick – animals'.

   .............................................................................................................................

3. food – country – Which – comes – our – from?

   .............................................................................................................................

## 9. Look, read and answer:

**A:** Does she like to eat chicken?
**B:** ....................................................

**A:** When does a snake lift up its head?
**B:** ....................................................

## 10. Punctuate the following:

1. i think we grow rice and wheat in egypt.

   .............................................................................................................................

2. how tall is a fennec fox

   .............................................................................................................................

## 1. Read and match:

1 Rhim gazelles
2 The heart
3 We use the digestive system

a. (  ) pumps the blood around the body.
b. (  ) when we eat and drink.
c. (  ) have yellow-white coats.

## 2. Read and put (✓) or (✗):

1 You need oats, butter and honey to make flapjacks. (  )
2 To be healthy, eat vegetables and drink water. (  )
3 We can see plant cells with our eyes. (  )

## 3. Fill in the gaps using words in the box:

(leaves – spiders – smaller)

1 Farmers like ............................ because they eat small insects.
2 The fennec fox is ............................ than other foxes.
3 The shoot grows taller to have ............................ .

## 4. Circle the odd word out:

1 bananas – chicken – grapes – mangoes
2 seed – soil – root – lunch
3 big – huge – crocodile – scary

## 5. Choose the correct answer:

1 Your friend has a nosebleed; you should (pinch – hit – wash) his nose.
2 The steppe eagle travels from (Europe – Egypt – France) to Africa.
3 I want to play basketball, (so – but – and) I hurt my leg.

## 6. Read the passage and answer the questions:

We use our respiratory system when we breathe. We need oxygen in our bodies. We breathe in air through our nose. The diaphragm goes down and pulls the air into the lungs. The heart pumps blood around our body.

### A) Choose the correct answer:

1 We breathe in air through our (lungs – nose – heart).
2 The (nose – diaphragm – blood) pulls the air into the lungs.

### B) Answer the following question:

3 Is oxygen important for our bodies?

..............................................................................................................

## 7. Choose the correct answer:

1  He ............................ her bike.

2  Press a bag of ............................ on the sprained foot.

3  Birds can fly with their ............................ .

## 8 . Rearrange the following:

1 The – small intestine – digestion – completes – the.

..............................................................................................................................

2 famous – What – governorate – is – Damietta – for?

..............................................................................................................................

3 perfect – Camels – for – desert – the – are.

..............................................................................................................................

## 9. Look, read and answer:

**A:** What does a pelican eat?
**B:** ..................................................

**A:** How can you help her?
**B:** ..................................................

## 10. Punctuate the following:

1 A steppe eagle travels to africa in the winter

..............................................................................................................................

2 which plants grow in the agricultural habitat

..............................................................................................................................

# Revision 6

3

**1. Read and match:**

| | |
|---|---|
| 1 Diaphragm | a. ( ) removes the waste out of the body. |
| 2 Oxygen is a gas in the air | b. ( ) is a muscle under the lungs. |
| 3 The large intestine | c. ( ) that people need to breathe. |

3

**2. Read and put (✓) or (✗):**

1 The Egyptian land isn't rich in nutrients. ( )

2 Lotus flowers grow in the desert. ( )

3 Rhim gazelles live in Sahara Desert. ( )

3

**3. Fill in the gaps using words in the box:**

(bigger – water – carbon dioxide)

1 Wash the scrape with soap and ............................ .

2 The female steppe eagle is ............................ than the male.

3 Plants need ............................ to make their food.

3

**4. Circle the odd word out:**

1 green – tomatoes – red – black

2 breakfast – dinner – chicken – lunch

3 eagle – pelican – camel – bird

3

**5. Choose the correct answer:**

1 (Engineers – Farmers – Fishermen) grow food for us to eat.

2 Watermelon and grapes are (vegetables – fruits – seeds).

3 I like grapes (but – or – and) bananas.

3

**6. Read the passage and answer the questions:**

Camels are beautiful, strong animals that live in the desert. They help us carry things and people to cross the desert. They have large, flat feet so they can walk on the sand. Camels can live without water for a long time. They have special ways to close their eyes and noses to stop the sand from coming in. Be careful around camels! They are very noisy and they can get angry.

**A) Choose the correct answer:**

1 The main idea of the passage is about (desert – camels – horses).

2 Camels can live without (eyes – water – noses) for a long time.

**B) Answer the following question:**

3 How can camels walk in the desert?

..........................................................................................................................................

## 7. Look, read and complete:

3

1 I want a ............................ of cake.

2 The ............................ completes the digestion.

3 The ............................ lifts up its head when it's scared.

## 8. Rearrange the following:

3

1 vegetables – We – eat – exercise – and.

....................................................................................................................................

2 is – What – biggest – land – animal – the?

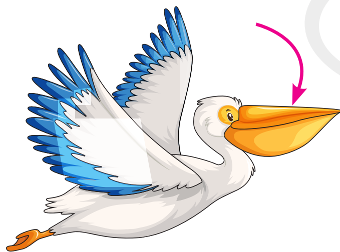

....................................................................................................................................

3 more – Roses – beautiful – than – reeds – are.

....................................................................................................................................

## 9. Look, read and answer:

3

A: What does the bird have?
B: ....................................................

A: What is this?
B: ....................................................

## 10. Punctuate the following:

3

1 nour likes eating flapjacks

....................................................................................................................................

2 does she like to eat chicken

....................................................................................................................................

**1. Read and match:**

1 The diaphragm pulls
2 The crocodile is
3 Plants near rivers and lakes

a. ( ) huge and scary.
b. ( ) need a lot of water.
c. ( ) the air into lungs.

**2. Read and put (✓) or (✗):**

1 Tomatoes have seeds inside. ( )
2 In big cities, the air is polluted because of plants. ( )
3 There isn't much water in the desert habitat. ( )

**3. Fill in the gaps using words in the box:**

(fast – seeds – Lunch)

1 We plant ............................. in the soil.
2 How ............................. can horses run?
3 ............................. is ready.

**4. Circle the odd word out:**

1 bananas – watermelons – mangoes – rice
2 spider – snake – fur – lizard
3 balcony – soil – root – leaves

**5. Choose the correct answer:**

1 The Egyptian land is (poor – rich – bad) in nutrients.
2 The giraffe is (tall – taller – tallest) than the camel.
3 Egyptian farmers raise (giraffes - chickens – elephants).

**6. Read the passage and answer the questions:**

The steppe eagle is a big beautiful bird. It travels from Europe to Africa in the winter because Africa is warmer than Europe. It lives for around 30 to 40 years. The steppe eagle lives in big open areas and eats small mammals and rabbits. When it opens its wings, it's around 170 centimeters long. The female eagle is bigger and heavier than the male. It helps control the number of small animals in a habitat.

**A) Choose the correct answer:**

1 A "habitat" is a natural (place – person – job) where animals and birds live.
2 A steppe eagle can live up to (four – fourteen – forty) years.

**B) Answer the following question:**

3 Why do steppe eagles travel from Europe to Africa?

..............................................................................................................

## 7. Look, read and complete:

1. Plants grow............................. under the soil.
2. ............................. eat small insects.
3. Eagles have big ............................. .

## 8. Rearrange the following:

1. grow – Farmers – can – rice – wheat – and.

.............................................................................................................................................

2. more – Crocodiles – are – dangerous – snakes – than.

.............................................................................................................................................

3. heavy – How – is – rhim – gazelle – the?

.............................................................................................................................................

## 9. Look, read and answer:

**A:** What is she eating?
**B:** ...................................................

**A:** What can you see?
**B:** ...................................................

## 10. Punctuate the following:

1. What is damietta governorate famous for

.............................................................................................................................................

2. the crocodile is more dangerous than the snake

.............................................................................................................................................

**1. Read and match:**

1 The snake lifts up its head,
2 The sunflower is
3 The heart pumps the

a. ( ) blood around the body.
b. ( ) when it's scared.
c. ( ) the heaviest flower.

**2. Read and put (✓) or (✗):**

1 The air in big cities is polluted because of factories and cars. ( )
2 Egypt doesn't produce many foods. ( )
3 If you have a scrape, you need a band-aid. ( )

**3. Fill in the gaps using words in the box:**

(important – seeds – pelican)

1 The ............................ eats small fish.
2 Tomatoes have ............................ inside.
3 All animals are ............................ .

**4. Circle the odd word out:**

1 wheat – tomato – potato - make
2 ugly – lizard – pelican – fish
3 germination – plant – seeds – awesome

**5. Choose the correct answer:**

1 We use camels' fur to make (clothes – milk – food).
2 Rhim gazelle has long ears and (teeth – horns – feet).
3 I like reading, (but – and – or) I don't like drawing.

**6. Read the passage and answer the questions:**

A plant is made of millions of cells. The plant cells are very, very small. Chloroplasts make the plants green. You can only see them with a microscope. The green plant cells make food for the plant. They use sunlight, carbon dioxide, and water. They give us oxygen in return. In some cities, people grow plants in apartments and buildings for a cleaner air.

**A) Choose the correct answer:**

1 Oxygen is a gas that people need to (breathe – eat – drink).
2 (Oxygen – Microscope – Chloroplasts) make plants green.

**B) Answer the following question:**

3 How can plant cells make their food?

..........................................................................................................................

## 7. Look, read and complete:

1. The elephant is............................ than the mouse.
2. ............................ is my favorite fruit.
3. The............................ looks huge and scary.

## 8. Rearrange the following:

1. foods – do – What – farmers – grow – Egyptian?

..........................................................................................................................................

2. snake – The – longer – is – the – than – spider.

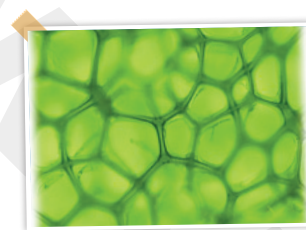

..........................................................................................................................................

3. does – Where – Lucas – live?

..........................................................................................................................................

## 9. Look, read and answer:

**A:** What do plants produce?
**B:** ......................................................

**A:** What make plants green?
**B:** ......................................................

## 10. Punctuate the following:

1. Let s go to ahmed's farm on Friday.

..........................................................................................................................................

2. which animals are scary

..........................................................................................................................................

**1. Read and match:**

1 The butterfly is
1 Hold his nose
3 Tomatoes are green

a. (  ) before they are red.
b. (  ) the most beautiful insect.
c. (  ) to stop a nosebleed.

**2. Read and put (✓) or (✗):**

1 We grow rice in Egypt. (  )
2 You can't breathe well if you are coughing. (  )
3 Put butter on a burn. (  )

**3. Fill in the gaps using words in the box:**

(pelican – fishermen – control)

1 Crocodiles ............................. the number of small animals.
2 There are farmers and ............................. in Damietta.
3 The ............................. is a big bird that lives near rivers.

**4. Circle the odd word out:**

1 milk – water – juice – watermelon
2 shortest – biggest – slower – fastest
3 helpful – important – snake – huge

**5. Choose the correct answer:**

1 The elephant is the (big – biggest – bigger) land animal.
2 Sunflowers face the (stars – sun – moon).
3 (Oil - Oxygen – Wind) is the gas in the air that people use to breathe.

**6. Read the passage and answer the questions:**

Papyrus is a very special plant. It is famous because ancient Egyptians used papyrus to make paper. They also made sandals and baskets from papyrus. It needs a lot of water and warm weather to grow quickly. It grows in the Nile Delta near the river. The plant grows up to 4.6 meters tall. It is green in color with sharp leaves.

**A) Choose the correct answer:**

1 The adjective "ancient" means (old – modern – new).
2 Ancient Egyptians used papyrus plants to make (glass – paper – wood).

**B) Answer the following question:**

3 What does the papyrus plant need to grow quickly?

..........................................................................................................

**7. Look, read and complete:**

1. The butterfly is more ............................ than the bee.

2. Fennec foxes have ............................ .

3. Farmers like ............................ .

**8. Rearrange the following:**

1. when – We – take in – oxygen – breathe – we.

.................................................................................................................................

2. fox – The – fennec – thick – has – fur.

.................................................................................................................................

3. is – the – Why – camel's – foot – special?

.................................................................................................................................

**9. Look, read and answer:**

**A:** How can we see plant cells?
**B:** ....................................................

**A:** What does it eat?
**B:** ....................................................

**10. Punctuate the following:**

1. That's awesome! Let s plant some seeds

.................................................................................................................................

2. how can we grow new plants

.................................................................................................................................

**1. Read and match:**

1 Rhim gazelle lives — a. ( ) with our teeth.

2 We use our respiratory system — b. ( ) in the Sahara Desert.

3 We chew the food — c. ( ) when we breathe.

**2. Read and put (✓) or (✗):**

1 Reed plants need much water to grow. ( )

2 The gastric juice changes food into a bigger form. ( )

3 The fennec fox is big and scary. ( )

**3. Fill in the gaps using words in the box:**

(desert – water – mango)

1 I like drinking .............................. juice.

2 We have to .............................. the plants every day.

3 Plants that grow in the .............................. don't need much water.

**4. Circle the odd word out:**

1 snake – fennec fox – pear – camel

2 daisy – rose – sunflower – river

3 control – live - mouse – eat

**5. Choose the correct answer:**

1 (Farmers – Fishermen – Doctors) catch fish in the sea.

2 The snake is thinner (than – then – that) the elephant.

3 Domiati (milk – cheese – guava) is very famous.

**6. Read the passage and answer the questions:**

Damietta is a big Egyptian governorate. Its land is rich in nutrients. The farmers there grow many foods such as rice, wheat, tomatoes, potatoes, lemons, grapes and guavas. They raise farm animals such as goats, cows and sheep, too. Fishermen catch thousands of fish in the sea. Damietta is famous for Domiati cheese. About one and a half million people live there. Life in Damietta is good.

**A) Choose the correct answer:**

1 (Damietta governorate – Domiati cheese – Fishermen) is the best title for the passage.

2 The life in Damietta is (bad – good – sad).

**B) Answer the following question:**

3 What do farmers in Damietta governorate grow?

..........................................................................................................................

## 7. Look, read and complete:

1. There is not much rain in the ............................ habitat.

2. The ............................ flower lives the shortest.

3. Put on ............................ on the scrape.

## 8. Rearrange the following:

1. are – Horses – more – camels – than – beautiful.

.......................................................................................................................

2. roots – The – grow – the – under – soil.

.......................................................................................................................

3. does – How – a fennec – lose – heat – fox?

.......................................................................................................................

## 9. Look, read and answer:

**A:** Where does it live?
**B:** ..................................................

**A:** Why do farmers like spiders?
**B:** ..................................................

## 10. Punctuate the following:

1. the daisy flower lives the shortest

.......................................................................................................................

2. come and look

.......................................................................................................................

## 1. Read and match:

1. The eagle
2. Plants produce
3. The small intestine

a. ( 2 ) pollen in a flower.
b. ( 3 ) completes the digestion.
c. ( 1 ) eats small mammals and rabbits.

## 2. Read and put (✓) or (✗):

1. Egyptian farmers produce many foods for us to eat. ( ✓ )
2. Tamarisk tree grows in the agricultural habitat. ( ✗ )
3. Fennec foxes have thick fur. ( ✓ )

## 3. Fill in the gaps using words in the box:

(Roots – rice – sprained)

1. Egyptian farmers grow rice in Egypt.
2. Roots grow under the soil.
3. Press a bag of ice on his sprained foot.

## 4. Circle the odd word out:

1. shoot – root – leave – desert
2. eagle – live – fennec fox – snake
3. redo - wheat – repaint – remake

## 5. Choose the correct answer:

1. We grow (chicken – onions – goats) in Egypt.
2. Wash the scrape with soap and (water – tea – milk).
3. The female steppe eagle is (big – bigger – biggest) than the male.

## 6. Read the passage and answer the questions:

Each plant is made of millions of cells. These cells are very, very small. We can only see them with a microscope. Chloroplasts make the plants green. The green plant cells are very important because they make food for the plant. They use sunlight, carbon dioxide and water.

### A) Choose the correct answer:

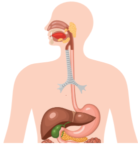

1. Plant cells are very (big – large – small).
2. (Oxygen – Chloroplasts – Water) make the plants green.

### B) Answer the following question:

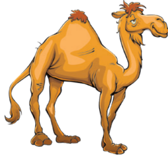

3. How can we see plant cells?

We can only see them with a microscope.

**7. Look, read and complete:**

1 The food goes through the esophagus to the stomach.

2 The camel helps us carry things and people.

3 Put green plants in your balcony.

**8. Rearrange the following:**

1 is – in – The nose – the center – the face – of.

The nose is in the center of the face.

2 pumps – The – around – heart – body – blood – the.

The heart pumps blood around the body.

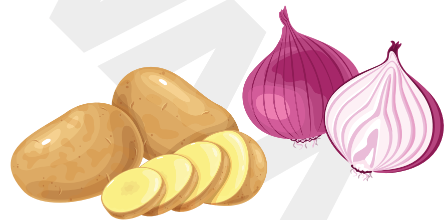

3 noisier – the camel – than – Is – horse – the?

Is the camel noisier than the horse?

**9. Look, read and answer:**

**A:** Where does it live?
**B:** It lives in the desert.

**A:** Which foods does Egypt produce?
**B:** Egypt produces potatoes and tomatoes.

**10. Punctuate the following:**

1 Damietta governorate is famous for domiati cheese

Damietta governorate is famous for Domiati cheese.

2 how long does a steppe eagle live

How long does a steppe eagle live?

**1. Read and match:**

1. We chew food
2. A camel
3. "Polluted" means when something

a. (2) helps people to cross the desert.
b. (3) is dirty from factories and cars.
c. (1) with our teeth.

**2. Read and put (✓) or (✗):**

1. The heart is in the center of the face. (✗)
2. Green plants produce oxygen. (✓)
3. Reed grows in rivers and lakes. (✓)

**3. Fill in the gaps using words in the box:**

(but – seed – faster)

1. We plant a seed in the soil and a plant grows.
2. He wants to play football, but he has a sprained foot.
3. The cheetah is faster than the dog.

**4. Circle the odd word out:**

1. elephant – giraffe – tamarisk – mouse
2. oats – Suzanne – honey – butter
3. wings – beaks - desert – feathers

**5. Choose the correct answer:**

1. The (root – shoot – fruit) grows taller to have leaves.
2. Flapjacks are big, square (cakes – cookies – sandwiches).
3. I eat food, (but – and – so) I exercise.

**6. Read the passage and answer the questions:**

Plants can grow in different habitats. Farmers work in the agricultural habitat and grow many plants such as bean plants and orange trees. Tamarisk and acacia trees grow in the desert habitat. There isn't much water there. The plants that grow in the desert don't need a lot of water.

**A) Choose the correct answer:**

1. (Tamarisk – Bean plants – orange trees) grow in the desert habitat.
2. There isn't much water in the (agricultural – river – desert) habitat.

**B) Answer the following question:**

3. What do farmers grow in the agricultural habitat?

They grow many plants such as bean plants and orange trees.

## 7. Look, read and complete:

1. Very light seeds can move in the wind.
2. I'm wearing my gloves .
3. I have a burn on my hand.

## 8. Rearrange the following:

1. like – Does – she – eat – chicken – to?

   Does she like to eat chicken?

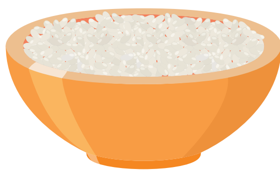

2. have – Birds – wings – feathers – and.

   Birds have wings and feathers.

3. most – The – is – rose – beautiful – flower – the.

   The rose is the most beautiful flower.

## 9. Look, read and answer:

**A:** What do Egyptian farmers grow?
**B:** Egyptian farmers grow rice.

**A:** Where do lotus flowers grow?
**B:** Lotus flowers grow in rivers and lakes.

## 10. Punctuate the following:

1. Farmers raise cows goats and sheep in damietta.

   Farmers raise cows, goats and sheep in Damietta.

2. where is Sahara desert

   Where is Sahara Desert?

## 1. Read and match:

1. Egyptian farmers
2. Stay away
3. The large intestine

a. ( 2 ) from smoke.
b. ( 3 ) takes water and salt from food for the body.
c. ( 1 ) grow rice, onions and tomatoes.

## 2. Read and put (✓) or (✗):

1. Potatoes, onions and tomatoes are fruits. ( ✗ )
2. Damietta governorate is famous for Domiati cheese. ( ✓ )
3. All animals are important. ( ✓ )

## 3. Fill in the gaps using words in the box:

(pelican – band-aid – rivers)

1. The pelican eats small fish.
2. Wash the scrape and redo the band-aid.
3. Plants in rivers and lakes need lots of water.

## 4. Circle the odd word out:

1. shortest – biggest – slower – fastest
2. Africa – giraffe – snake – fox
3. lungs – butter – esophagus – stomach

## 5. Choose the correct answer:

1. The land in Damietta governorate is rich (in – of – at) nutrients.
2. We take (oxygen – carbon dioxide – water) from air to breathe.
3. The fox's thick (feather – fur – wing) keeps it warm.

## 6. Read the passage and answer the questions:

We use our digestive system when we digest what we eat and drink. We chew the food with our teeth, then the food goes down the esophagus. When it arrives in the stomach, the food mixes with the gastric juice. The gastric juice changes it into a simpler form.

### A) Choose the correct answer:

1. We chew the food with our (esophagus – stomach – teeth).
2. The food goes down the (teeth – mouth – esophagus) to the stomach.

### B) Answer the following question:

3. What does the gastric juice do?

The gastric juice changes food into simpler form.

## 7. Look, read and complete:

1. The nose is in the center of the face.
2. A plant is made of millions of cells.
3. We have two lungs in our body.

## 8. Rearrange the following:

1. chicken – Farmers – in – raise – Egypt.

   Farmers raise chicken in Egypt.
2. heavier – The elephant – than – lion – the – is.

   The elephant is heavier than the lion.
3. does – How – long – eagle – live – a steppe?

   How long does a steppe eagle live?

## 9. Look, read and answer:

**A:** How much water does it need to grow?
**B:** It doesn't need much water.

**A:** What does it eat?
**B:** It eats small mammals and rabbits.

## 10. Punctuate the following:

1. adel has a sprained foot

   Adel has a sprained foot.
2. where do camels live

   Where do camels live?

## 1. Read and match:

1. Camels are
2. Lotus flowers
3. "Pump" means

a. ( 3 ) to move quickly from one place to another.
b. ( 2 ) grow in rivers and lakes.
c. ( 1 ) perfect for the desert.

## 2. Read and put (✓) or (✗):

1. You can put a band-aid on a scrape. (✓)
2. Nose and lungs are parts of the digestive system. ( ✗ )
3. Crocodiles eat grass and plants. ( ✗ )

## 3. Fill in the gaps using words in the box:

( lungs – flapjacks – mammals)

1. We have two lungs in our body.
2. We need butter, honey and oats to make flapjacks .
3. The steppe eagle eats small mammals and rabbits.

## 4. Circle the odd word out:

1. faster – smaller – shorter – dangerous
2. lotus – desert - rose - daisy
3. chicken – grapes – guava – lemons

## 5. Choose the correct answer:

1. The cheetah is (fast – faster – fastest) than the dog.
2. Fishermen (catch – visit – make) thousands of fish in the sea.
3. Domiati cheese is very (poor – famous – bad).

## 6. Read the passage and answer the questions:

Plants are very helpful to us because they can make the air cleaner. People need oxygen to breathe. In big cities, the air is polluted because of factories and cars. There is a lot of carbon dioxide. Green plants take carbon dioxide and give us oxygen to breathe.

### A) Choose the correct answer:

1. The air in big cities is (clean – polluted – clear) because of cars and factories.
2. Green plants need (oxygen – people – carbon dioxide) to make their food.

### B) Answer the following question:

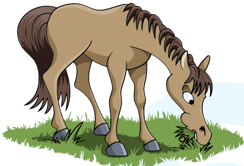

3. Why are plants important to us?

Because they can make the air cleaner.

## 7. Look, read and complete:

1  The pelican has a big beak.

2  Farmers work at the agricultural habitat. They grow food for us.

3  Horses like to eat grass.

## 8. Rearrange the following:

1 are – Snakes – most – the – dangerous – animals.

Snakes are the most dangerous animals.

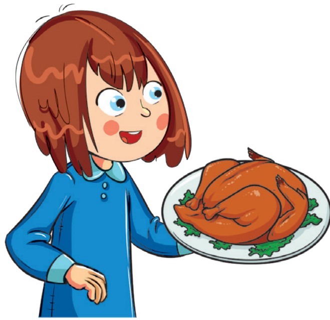

2 seeds – Some – to – fur – stick – animals'.

Some seeds stick to animals' fur.

3 food – country – Which – comes – our – from?

Which food comes from our country?

## 9. Look, read and answer:

**A:** Does she like to eat chicken?
**B:** Yes, she does.

**A:** When does a snake lift up its head?
**B:** The snake lifts up its head when it's scared.

## 10. Punctuate the following:

1 i think we grow rice and wheat in egypt.

I think we grow rice and wheat in Egypt.

2 how tall is a fennec fox

How tall is a fennec fox?

### 1. Read and match:

1 Rhim gazelles
2 The heart
3 We use the digestive system

a. ( 2 ) pumps the blood around the body.
b. ( 3 ) when we eat and drink.
c. ( 1 ) have yellow-white coats.

### 2. Read and put (✓) or (✗):

1 You need oats, butter and honey to make flapjacks. (✓)
2 To be healthy, eat vegetables and drink water. (✓)
3 We can see plant cells with our eyes. (✗)

### 3. Fill in the gaps using words in the box:

(leaves – spiders – smaller)

1 Farmers like spiders because they eat small insects.
2 The fennec fox is smaller than other foxes.
3 The shoot grows taller to have leaves.

### 4. Circle the odd word out:

1 bananas – chicken – grapes – mangoes
2 seed – soil – root – lunch
3 big – huge - crocodile – scary

### 5. Choose the correct answer:

1 Your friend has a nosebleed; you should (pinch – hit – wash) his nose.
2 The steppe eagle travels from (Europe – Egypt – France) to Africa.
3 I want to play basketball, (so – but – and) I hurt my leg.

### 6. Read the passage and answer the questions:

We use our respiratory system when we breathe. We need oxygen in our bodies. We breathe in air through our nose. The diaphragm goes down and pulls the air into the lungs. The heart pumps blood around our body.

#### A) Choose the correct answer:

1 We breathe in air through our (lungs – nose – heart).
2 The (nose – diaphragm – blood) pulls the air into the lungs.

#### B) Answer the following question:

3 Is oxygen important for our bodies?

Yes, it is.

## 7. Choose the correct answer:

1 He recleaned her bike.

2 Press a bag of ice on the sprained foot.

3 Birds can fly with their wings.

## 8 . Rearrange the following:

1 The – small intestine – digestion – completes – the.

The small intestine completes the digestion.

2 famous – What – governorate – is – Damietta – for?

What is Damietta governorate famous for?

3 perfect – Camels – for – desert – the – are.

Camels are perfect for the desert.

## 9. Look, read and answer:

**A:** What does a pelican eat?
**B:** A pelican eats small fish.

**A:** How can you help her?
**B:** I can hit her on the back with my hand open.

## 10. Punctuate the following:

1 A steppe eagle travels to africa in the winter

A steppe eagle travels to Africa in the winter.

2 which plants grow in the agricultural habitat

Which plants grow in the agricultural habitat?

## 1. Read and match:

1. Diaphragm
2. Oxygen is a gas in the air
3. The large intestine

a. ( 3 ) removes the waste out of the body.
b. ( 1 ) is a muscle under the lungs.
c. ( 2 ) that people need to breathe.

## 2. Read and put (✓) or (✗):

1. The Egyptian land isn't rich in nutrients. ( ✗ )
2. Lotus flowers grow in the desert. ( ✗ )
3. Rhim gazelles live in Sahara Desert. ( ✓ )

## 3. Fill in the gaps using words in the box:

(bigger – water – carbon dioxide)

1. Wash the scrape with soap and water.
2. The female steppe eagle is bigger than the male.
3. Plants need carbon dioxide to make their food.

## 4. Circle the odd word out:

1. green – tomatoes – red – black
2. breakfast – dinner – chicken – lunch
3. eagle – pelican – camel – bird

## 5. Choose the correct answer:

1. (Engineers – Farmers – Fishermen) grow food for us to eat.
2. Watermelon and grapes are (vegetables – fruits – seeds).
3. I like grapes (but – or – and) bananas.

## 6. Read the passage and answer the questions:

Camels are beautiful, strong animals that live in the desert. They help us carry things and people to cross the desert. They have large, flat feet so they can walk on the sand. Camels can live without water for a long time. They have special ways to close their eyes and noses to stop the sand from coming in. Be careful around camels! They are very noisy and they can get angry.

### A) Choose the correct answer:

1. The main idea of the passage is about (desert – camels – horses).
2. Camels can live without (eyes – water – noses) for a long time.

### B) Answer the following question:

3. How can camels walk in the desert?

They have large, flat feet so they can walk on the sand.

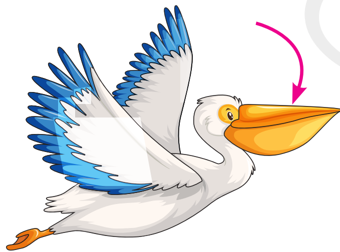

**7. Look, read and complete:**

1. I want a slice of cake.
2. The small intestine completes the digestion.
3. The snake lifts up its head when it's scared.

**8. Rearrange the following:**

1. vegetables – We – eat – exercise – and.
   We eat vegetables and exercise.
2. is – What – biggest – land – animal – the?
   What is the biggest land animal?
3. more – Roses – beautiful – than – reeds – are.
   Roses are more beautiful than reeds.

**9. Look, read and answer:**

**A:** What does the bird have?
**B:** Birds have beaks.

**A:** What is this?
**B:** It's a pin.

**10. Punctuate the following:**

1. nour likes eating flapjacks
   Nour likes eating flapjacks.
2. does she like to eat chicken
   Does she like to eat chicken?

**1. Read and match:**

1. The diaphragm pulls
2. The crocodile is
3. Plants near rivers and lakes

a. ( 2 ) huge and scary.
b. ( 3 ) need a lot of water.
c. ( 1 ) the air into lungs.

**2. Read and put (✓) or (✗):**

1. Tomatoes have seeds inside. ( ✓ )
2. In big cities, the air is polluted because of plants. ( ✗ )
3. There isn't much water in the desert habitat. ( ✓ )

**3. Fill in the gaps using words in the box:**

(fast – seeds – Lunch)

1. We plant seeds in the soil.
2. How fast can horses run?
3. Lunch is ready.

**4. Circle the odd word out:**

1. bananas – watermelons – mangoes – rice
2. spider – snake – fur – lizard
3. balcony – soil – root – leaves

**5. Choose the correct answer:**

1. The Egyptian land is (poor - rich - bad) in nutrients.
2. The giraffe is (tall – taller -tallest) than the camel.
3. Egyptian farmers raise (giraffes - chickens – elephants).

**6. Read the passage and answer the questions:**

The steppe eagle is a big beautiful bird. It travels from Europe to Africa in the winter because Africa is warmer than Europe. It lives for around 30 to 40 years. The steppe eagle lives in big open areas and eats small mammals and rabbits. When it opens its wings, it's around 170 centimeters long. The female eagle is bigger and heavier than the male. It helps control the number of small animals in a habitat.

**A) Choose the correct answer:**

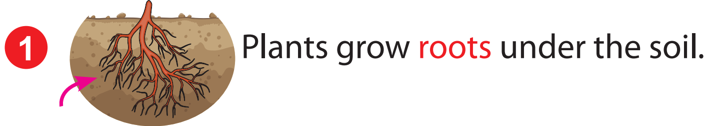

1. A "habitat" is a natural (place – person – job) where animals and birds live.
2. A steppe eagle can live up to (four – fourteen – forty) years.

**B) Answer the following question:**

3. Why do steppe eagles travel from Europe to Africa?

Because Africa is warmer than Europe in winter.

## 7. Look, read and complete:

1. Plants grow roots under the soil.

2. Spiders eat small insects.

3. Eagles have big wings.

## 8. Rearrange the following:

1. grow – Farmers – can – rice – wheat – and.

   Farmers can grow rice and wheat.

2. more – Crocodiles – are – dangerous – snakes – than.

   Crocodiles are more dangerous than snakes.

3. heavy – How – is – rhim – gazelle – the?

   How heavy is the Rhim gazelle?

## 9. Look, read and answer:

**A:** What is she eating?
**B:** She is eating a mango.

**A:** What can you see?
**B:** I can see a bee.

## 10. Punctuate the following:

1. What is damietta governorate famous for

   What is Damietta governorate famous for?

2. the crocodile is more dangerous than the snake

   The crocodile is more dangerous than the snake.

**1. Read and match:**

1 The snake lifts up its head,
2 The sunflower is
3 The heart pumps the

a. ( 3 ) blood around the body.
b. ( 1 ) when it's scared.
c. ( 2 ) the heaviest flower.

**2. Read and put (✓) or (✗):**

1 The air in big cities is polluted because of factories and cars. ( ✓ )
2 Egypt doesn't produce many foods. ( ✗ )
3 If you have a scrape, you need a band-aid. ( ✓ )

**3. Fill in the gaps using words in the box:**

(important – seeds – pelican)

1 The pelican eats small fish.
2 Tomatoes have seeds inside.
3 All animals are important.

**4. Circle the odd word out:**

1 wheat – tomato – potato – make
2 ugly – lizard – pelican – fish
3 germination – plant – seeds – awesome

**5. Choose the correct answer:**

1 We use camels' fur to make (clothes – milk – food).
2 Rhim gazelle has long ears and (teeth – horns – feet).
3 I like reading, (but – and – or) I don't like drawing.

**6. Read the passage and answer the questions:**

A plant is made of millions of cells. The plant cells are very, very small. Chloroplasts make the plants green. You can only see them with a microscope. The green plant cells make food for the plant. They use sunlight, carbon dioxide, and water. They give us oxygen in return. In some cities, people grow plants in apartments and buildings for a cleaner air.

**A) Choose the correct answer:**

1 Oxygen is a gas that people need to (breathe – eat – drink).
2 (Oxygen – Microscope – Chloroplasts) make plants green.

**B) Answer the following question:**

3 How can plant cells make their food?

They use sunlight, carbon dioxide and water.

### 7. Look, read and complete:

1. The elephant is bigger than the mouse.
2. Sugarcane is my favorite fruit.
3. The crocodile looks huge and scary.

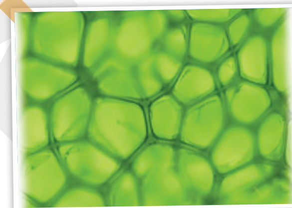

### 8. Rearrange the following:

1. foods – do – What – farmers – grow – Egyptian?
   What foods do Egyptian farmers grow?
2. snake – The – longer – is – the – than – spider.
   The snake is longer than the spider.
3. does – Where – Lucas – live?
   Where does Lucas live?

### 9. Look, read and answer:

**A:** What do plants produce?
**B:** Plants produce pollen in the flowers.

**A:** What make plants green?
**B:** Chloroplasts make plants green.

### 10. Punctuate the following:

1. Let s go to ahmed's farm on Friday.
   Let's go to Ahmed's farm on Friday.
2. which animals are scary
   Which animals are scary?

**1. Read and match:**

1. The butterfly is
1. Hold his nose
3. Tomatoes are green

a. ( 3 ) before they are red.
b. ( 1 ) the most beautiful insect.
c. ( 2 ) to stop a nosebleed.

**2. Read and put (✓) or (✗):**

1. We grow rice in Egypt. ( ✓ )
2. You can't breathe well if you are coughing. ( ✓ )
3. Put butter on a burn. ( ✗ )

**3. Fill in the gaps using words in the box:**

(pelican – fishermen – control)

1. Crocodiles control the number of small animals.
2. There are farmers and fishermen in Damietta.
3. The pelican is a big bird that lives near rivers.

**4. Circle the odd word out:**

1. milk – water – juice – watermelon
2. shortest – biggest – slower – fastest
3. helpful – important – snake – huge

**5. Choose the correct answer:**

1. The elephant is the (big – biggest – bigger) land animal.
2. Sunflowers face the (stars – sun – moon).
3. (Oil – Oxygen – Wind) is the gas in the air that people use to breathe.

**6. Read the passage and answer the questions:**

Papyrus is a very special plant. It is famous because ancient Egyptians used papyrus to make paper. They also made sandals and baskets from papyrus. It needs a lot of water and warm weather to grow quickly. It grows in the Nile Delta near the river. The plant grows up to 4.6 meters tall. It is green in color with sharp leaves.

**A) Choose the correct answer:**

1. The adjective "ancient" means (old – modern – new).
2. Ancient Egyptians used papyrus plants to make (glass – paper – wood).

**B) Answer the following question:**

3. What does the papyrus plant need to grow quickly?

It needs a lot of water and warm weather.

**7. Look, read and complete:**

1. The butterfly is more beautiful than the bee.
2. Fennec foxes have fur.
3. Farmers like spiders.

**8. Rearrange the following:**

1. when – We – take in – oxygen – breathe – we.

   We take in oxygen when we breathe.
2. fox – The – fennec – thick – has – fur.

   The fennec fox has thick fur.
3. is – the – Why – camel's – foot – special?

   Why is the camel's foot special?

**9. Look, read and answer:**

**A:** How can we see plant cells?
**B:** We can see plant cells with a microscope.

**A:** What does it eat?
**B:** It eats small mammals and rabbits.

**10. Punctuate the following:**

1. That's awesome! Let s plant some seeds

   That's awesome! Let's plant some seeds.
2. how can we grow new plants

   How can we grow new plants?

## 1. Read and match:

1. Rhim gazelle lives
2. We use our respiratory system
3. We chew the food

a. ( 3 ) with our teeth.
b. ( 1 ) in the Sahara Desert.
c. ( 2 ) when we breathe.

## 2. Read and put (✓) or (✗):

1. Reed plants need much water to grow. ( ✓ )
2. The gastric juice changes food into a bigger form. ( ✗ )
3. The fennec fox is big and scary. ( ✗ )

## 3. Fill in the gaps using words in the box:

(desert – water – mango)

1. I like drinking mango juice.
2. We have to water the plants every day.
3. Plants that grow in the desert don't need much water.

## 4. Circle the odd word out:

1. snake – fennec fox – pear – camel
2. daisy – rose – sunflower – river
3. control – live – mouse – eat

## 5. Choose the correct answer:

1. (Farmers – Fishermen – Doctors) catch fish in the sea.
2. The snake is thinner (than – then – that) the elephant.
3. Domiati (milk – cheese – guava) is very famous.

## 6. Read the passage and answer the questions:

Damietta is a big Egyptian governorate. Its land is rich in nutrients. The farmers there grow many foods such as rice, wheat, tomatoes, potatoes, lemons, grapes and guavas. They raise farm animals such as goats, cows and sheep, too. Fishermen catch thousands of fish in the sea. Damietta is famous for Domiati cheese. About one and a half million people live there. Life in Damietta is good.

### A) Choose the correct answer:

1. (Damietta governorate – Domiati cheese – Fishermen) is the best title for the passage.
2. The life in Damietta is (bad – good – sad).

### B) Answer the following question:

3. What do farmers in Damietta governorate grow?

They grow many foods such as rice, wheat, tomatoes, potatoes, lemons, grapes and guavas.

## 7. Look, read and complete:

1. There is not much rain in the desert habitat.
2. The daisy flower lives the shortest.
3. Put on band-aid on the scrape.

## 8. Rearrange the following:

1. are – Horses – more – camels – than – beautiful.

   Horses are more beautiful than camels.

2. roots – The – grow – the – under – soil.

   The roots grow under the soil.

3. does – How – a fennec – lose – heat – fox?

   How does a fennec fox lose heat?

## 9. Look, read and answer:

**A:** Where does it live?
**B:** It lives in the desert.

**A:** Why do farmers like spiders?
**B:** Because they eat small insects.

## 10. Punctuate the following:

1. the daisy flower lives the shortest

   The daisy flower lives the shortest.

2. come and look

   Come and look !
